

Responsibilities of Managers/Supervisors – Oil & Gas Industry

This two-day course is designed to help managers/supervisors understand their Duty of Care responsibilities as outlined under the framework of the Act.

As OHS Representatives have the power to issue Provisional Improvement Notices, it is important for managers/supervisors to have a more in-depth knowledge of PINs, why they are issued and how to resolve any breaches of the Act or Regulations.

The knowledge gained during this two days will put managers/supervisors in a better position to demonstrate competence and contribute to the OHS needs of staff in their areas of responsibility.

Course Content

- Occupational health and safety legislation requirements
- The development and philosophy of the legislative changes from Prescribed Schedule to "Safety Case" Legislation
- Recognising Regulations and Codes of Practice
- Functions of NOPSAs
- Schedule 3 and Subordinate Legislation
- Provisional Improvement Notices
- Safety Management Systems and Safety Case
- Root Cause Analysis
- Incident Investigation
- Review of Hazard Management

Learning Outcomes

When managers/supervisors have completed this course they will be able to:

- Have a good overview of the functions of NOPSAs and the Offshore Petroleum Act 2006;
- Understand their duties as they relate to Schedule 3 and Subordinate Legislation and issuing Provisional Improvement Notices;
- Have practical experience of negotiation;
- Be able to analyse Root Causes and implement strategies to eliminate or reduce the risk;
- Know the requirements of Incident Investigation and Reporting; and
- Have reviewed hazard management.
